

II. REMARKS

A. Status of the Claims

Claims 28-48 were previously pending in this application and were canceled in the Examiner's Amendment accompanying the Notice of Allowability mailed June 3, 2003. Claims 49-68 were added by the Examiner in an Examiner's Amendment and allowed in the Notice of Allowability. Applicants submit this amendment to add new dependent claim 69, which corresponds previous claim 32. Applicants believe the Examiner inadvertently omitted this claim from the new claims entered by the Examiner in the Examiner's Amendment. Applicants do not believe there was any issue of patentability raised during the prosecution of this case that would prevent this dependent claim from being allowed. No new matter is introduced by this Amendment.

B. Conclusion

This paper is submitted to be a complete response to the Notice of Allowability mailed June 3, 2003. Applicants submit that in light of the foregoing remarks, the present case is in condition for issue, and such action is respectfully requested. If the Examiner has any questions or comments, a telephone call to the undersigned Applicant's representative is earnestly solicited.

Respectfully submitted,
